

ADMONISHMENT

It is the policy of the Addison Police Department to investigate personnel complaints thoroughly, within current Departmental, legal, and contractual guidelines and in accordance with the Illinois Peace Officers Disciplinary Act.

During the course of this investigation, it may be necessary to contact you about additional details that may be uncovered. Additionally, the witnesses you have listed will be contacted, additional witnesses will be sought, and pertinent evidence collected. Should the investigation reveal that legal or severe disciplinary actions are warranted, your testimony and the testimony of the witnesses will be required in front of the proper court or disciplinary authority.

False accusations, complaints, and allegations could expose the complaining parties to legal remedies by the aggrieved party. Additionally, any testimony given which is untruthful could result in perjury penalties against the individual giving such false testimony.
